

**GREAT FUTURES START HERE.**

**BOYS & GIRLS CLUB  
OF DOOR COUNTY**

November 2014

Dear Parents and Guardians,

Last January, we implemented Stride Academy, an educational computer program presented by The Boys & Girls Clubs of America and the Wisconsin after 3 Initiative, and we are excited to use it as an educational tool again for this school year. The purpose of this program is to assist club members with their retention and continued improvement in their education.

Each member is registered into the program at their grade level. Through the program, members will take quizzes to test their reading and math skills. As they progress the program grows with them to either provide them with the extra support to learn the skills they are struggling on or to push them further to continue to expand their knowledge.

As members continue to take their quizzes in reading and math, they receive coins for answering questions correctly. These coins can then “buy” them game time! Members have over 20 different games that they may choose from. Stride Academy also gives members opportunities to compete in contests, thus adding even more incentives to play and learn. Stride Academy offers parents an opportunity to receive weekly emails about their child’s progress in the program.

The Boys & Girls Clubs of Door County hopes that this program will be the perfect mix of both educational and fun!

Please flip to the back to read more about how to login to Stride Academy at home or any other location away from The Boys & Girls Club.

Thank you,

*Meda Chapman*
